TWO-MINUTE SERMON

(By REV. GEORGE HENRY)

PUNISHMENT

"Punishment-Pain or loss suffered by a person because of doing wrong." That is Webster's definition. Punishment, then, is not the act of an angry and vindictive God as some teach. Suffering is the result of sinning, "Evil shall slay the wicked." Put your hand in the fire and you will be burned. A deliberate act and a natural result. Don't charge your pain to God. Put food before a hungry man, he refuses to eat, he starves. Who is responsible? If a sick man refuses the only remedy that promises a cure he dies, who Is to blame? You must "work out your own salvation" or you accomplish your own destruction Some men pray for relief from physical suffering when all they need is an emetic or a cathartic. As well ask God to prevent the pain of the surgeon's knife while refusing the anaesthetic. All the ills that ficsh is heir to here and all that may befall a man hereafter may be traced to his own action.

ON ATHLETICS

-Continued from Page One-Drawing is a branch of Manual Arts, or Algebra a branch of Mathematics, so is Athletics a branch of the Physical Education department.

I thought perhaps the best way to get at this question of "The Value of Athletics" would be to first find out what are the objectives of our whole system of Education (not Physical Education) and then see if Athletics has anything to contribute toward these objectives.

The National Educational Assoclation has listed seven objectives true objectives of our public school Leonard Kimball and daughter and education. These are the object Elmo Saunders were callers in of Gorham, N. H., called on A. B.

With children particularly, sweets of all kind should be served in small quanti ties and then only after the more Important vegetables, milk and fruits are eaten.

Hanvey's tone was gentle, his manner disarming. He seemed so guileless, so transparent. Larry paced slowly up and down the room. Reagan followed him with his eyes. Finally, the young man turned and spoke to Hanvey.'

"May I ask one question?" "Sure, Son-sure."

"Have you spoken to Miss Peyton"

"But if he was alive when you got there, it don't look very nice ecause everybody knows that you

were the last person in that room before the body was found. So I ask you again: When you got to his room, was he alive or dead?" The boy's face was white, but he

inswered in a level voice. "He was alive." "You're sure you didn't quarrel?"

"Positive." "Thayer didn't get sore?"

Again that strained, haggard ght flashed in Larry's eyes, "No-o . . . he didn't get sore." "Not at all?"

"I don't know, I was only there for a few minutes" "And there wasn't any quarrel?"

Larry whirled on his inquisitor. How many times do I have to tell you that we didn't quarrel?" "None," murmured Hanvey gen-

tly, 1"Gosh! Son-you don't have to tell me a thing. Any minute you get tired of my questions, I'll quit, I ain't aiming to get you peeved up. Now, if you'd rather I wouldn't ask you no more questions-"I'm sorry, Mr. Hanvey, Please

go on.' "Thanks, Son. And any time I step on your pet bunion don't hesitate to say so. It aln't my idea to

get any man riled at me." "I understand. What else do you wish to know about that interview?" "Nothing."

The boy was surprised, "Nothing." "Not a thing. You've told me all I need to know. According to the way I understand It: Thayer was alive when you got there and you and he had a nice friendly chatthat is, it wasn't exactly friendly, but you didn't quarrel. Then you

left. Ain't that the way it was?" . ." Larry was nonplussed. "Yes-It bappened Just

that way." "Good. That clears things up in my mind. Now can I ask you something else?"

"Surely," "Do you know Miss Antoinette Peyton?"

Reagan saw Larry's figure stiffen defensively, and there was the briefest hesitation before he answered. "Yes."

"Do you know Max Vernon?"

"Like him?" "He's a nice chap."

"When you were at the fraternity

house to see Thayer-did you hap-

"Or Miss Peyton?"

Hanvey folded his hands on his huge stomach, "You object if I ask you a personal question, Welch?" "Go nhend."

"You're pretty keen for Miss Peyton, aren't you?"

Larry flushed. "I admire her very much."

"Nothing more? "I don't see more than that,"

Amazingly enough, Univer did not pursue that topic. It seemed to Rengan that Jim was constantly coming to the verge of vital disclosures and then going off on another tack. "Were Theyer and Miss Peyton

very friendly?" "I don't think so."

"You're not sure?"

"No." "She hadn't ever mentloped him ter first. I told her to lay off Pat to you? You haven't any idea why she went to visit Thayer at the fra-

obliged." "You-you don't wish to ask me anything else?"

"Nope, I reckon you've told me about everything there is to tell, haven't you?"

Why-why, yes . . . I guess so." "Well, by-by, and good luck,"

The door closed behind them, and Larry Welch, thoroughly bewildered and not a little ill at ease, stared at the mute panels.

In the corridor John Reagan faced his companion. He could

contain himself no longer, "Welch was lying!" he an-

ounced." Jim Hanvey smiled.

"Sure he was, John: sure he was, But that ain't what interests me. What I crave to know is-how much? And why?"

CHAPTER VIII

SUMMER had settled down upon the Marland campus, While every man and woman connected with the college was vitally interested in the Thayer killing, their interest could not very well be

termed excitement. The students, as a whole, could not believe any of the three suspects guilty. It was a nasty mess all around-the college agreed on

that. A half dozen undergrads who were lounging on the lawn in front of the Lambda Theta Pi house saw John Reagan drive up in his shiny little car. They saw someone else, too-an astounding fat man who lay back in the sent next to the driver and complained bitterly

about the heat. Later someone passed the word that the fat man was a famous detective and was greeted with an outburst of derisive laughter. That bird a detective!

Ha-ha! Hanvey snorted up the stairway in Rengan's wake. They entered the room. Once inside Rengan stood back and curiously watched his cel-

ebrated companion. Hanvey's fishlike little eyes looked everywhere and appeared to see nothing. Reagan walted for him to do something- and was disap pointed. Jim merely stood in one spot, breathing audibly and mopping the back of his neck. He finally turned, and Reagan prepared for a pronouncement of importance.

"One thing I'm sure of," said Han-"What?" "I never have felt no hotter

weather !" It was Reagan who was forced to remind Hanvey that they were

after that because it would just have been my memory. I can see now. . . .

He opened the door and stepped into the hall. From where he stood he could see that section of the chalk mark which denoted the position of Thayer's feet and ankles.

"That's what Carmicino says he saw, Jim."

"I see. . . " Hanvey walked back in the room and Reagan followed, closing the door again,

"Did you look over his papers?" asked the fat man.

"Sure." "Find anything?"

"I think so, I found his bank book for one thing. He's deposited some large amounts and there ain't much question that he was getting them from Max Vernon."

"Any other deposits?" "Yes. Some small, and others as high as a couple of hundred dollars. But there nin't any record of where they came from.

"Any letters?"

"A few."

"From girls?" "Plenty, Especially from Ivy Welch-Larry's sister. Want to read 'em?'

"Mushy?" "I'll say. And how! The kid was crazy about that bird and no mistake. He was her first love and all that sort of thing. There wasn't anything in the world she wouldn't do for him.

Jim Hanvey was staring into the sunshine beyond the closed windows; there was a queer, soft light in his usually expressionless eyes. "I reckon I won't rend 'era, John,

never could get a whale of a laugh out of love letters." Rengan flushed. He knew Hanvey hadn't meant to rebuke him . . . but, by gosh! who ever would have suspected that mountain of flesh of
